

Kevin- the judge, who has let the Government stall and refuse to comply in the King case and wants to get the case over with is trying to pressure me into dropping it by arbitrariness and partisanship of subtle nature. In order to offset this I want to make a study of the court transcripts and to itemize each thing the Government was to do and failed to do, each thing the judge said and didn't enforce, each promise the government made and didn't keep. There have been quite a few status calls and by now we should have the transcripts of all. Before I undertake this study, which will require much reading I'll not have time to repeat, I need to know that I have all transcripts, otherwise if I overlook anything we can be clobbered. Jim is overloaded with work and is not entirely well. If he can't get anyone else to compare the list of status calls from the copy of the court calendar we have against the transcripts he has could you do this some rainy day when you have no work for which you get paid? Jim should have all the transcripts at one point so it should not take more than at most a couple of hours? Withor way, thanks

Dear Jim,

Until Lil harvests what little there is of of dansen crop I'm resting after some mowing with the riding mower. When she returns I'm going to see if I'm up to pushing a push mower where the grass is so wet and thick the riding mower won't touch it. It is good for me x if I can and it must be done. The doctor told me two days ago that if I am up to these things to do them, as long as I'm careful, because forcing the heart to work tends to stretch the constricted vessels that may be the cause of the dizziness. We have so few dansens this will be brief. While resting and working my way down through the stack I came to a few pages of the 6/30/77 transcript in the King case. Important stuff in it. Reminds me that I asked you for a list of the transcripts we have so I can see if I have them all. I don't want to review them until I'm certain because once will be too much. Once I've all we have - and I think you were to get more from the reporter- I think it would be good for me to go over them and make notes and copies of the more important pages. Despite the coming depositions I think that once I'm prepared I can do this before you go abroad and on the dictating machine I had to get for the consultancy. In time Lil can type it up. I think this may be more important than you realize...If you do not have a list please try to get someone to make it. If all else fails maybe Kevin would be willing. You have a list of the status calls and the checking is not that great if you have the transcripts all together. If you lack some please speak to the reporter again. Best

JP told me about the Times story on Livingstone, etc. Gary Mack tells me that Golz is trying to reach each of the doctors.
